Research Opportunities

Mapping to RE constructs:
• Storyboarding
• Scenario analysis
• Use case analysis
• etc.

Creating RE models:
• Narrative scenarios
• Use Cases
• User experience design
• Prototype design
• etc.

In the “lab”

Requirements analysis

Requirements modeling/specificiation

In the field

Integrating ethnographic methods:
• Cultural probes
• Storytelling
• etc.

Incorporating participatory design

Requirements gathering/elicitiation

Validating in-situ:
• Animation
• In-context stories
• In-context video
• Prototypes
• etc.
Requirements Engineering at the Margins: Avoiding Technological Hubris through Alternative Approaches
