

GSAW

Expanding Access to Information

Dr. Willie Krenz

Chief Information Officer

The Aerospace Corporation

Engineering and Technology Group

March 1, 2012

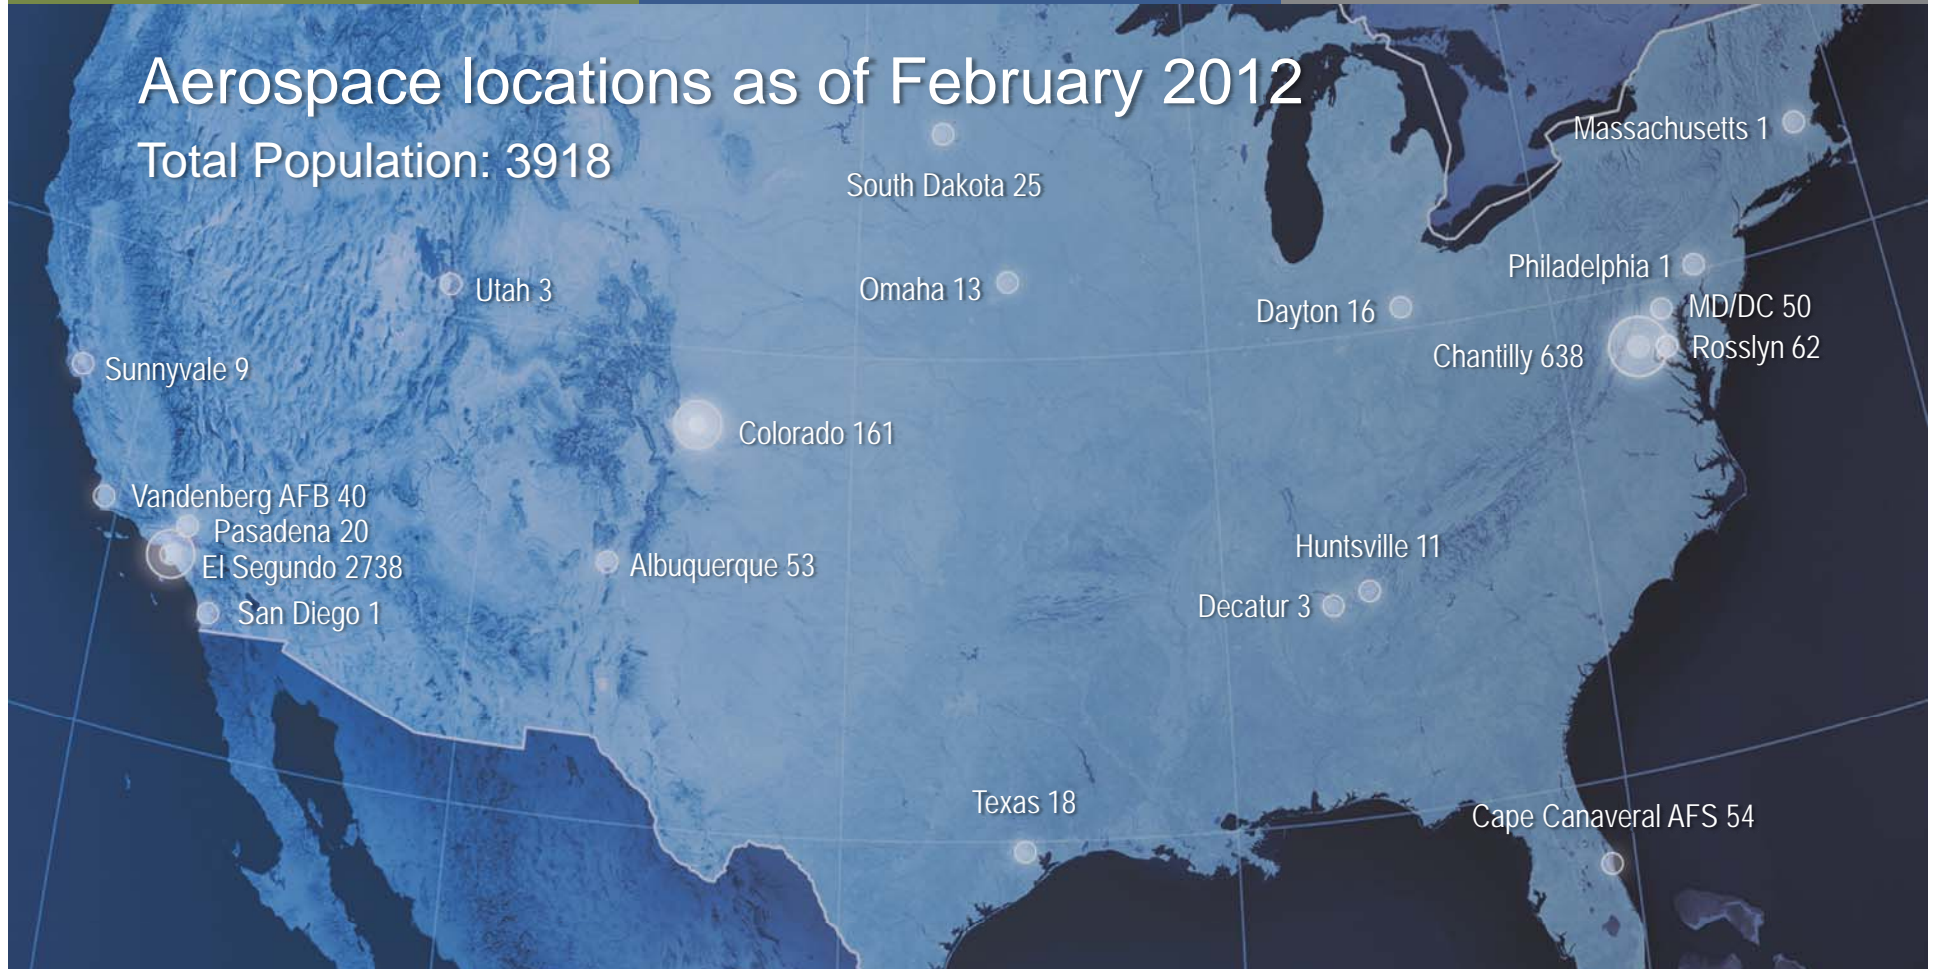

Why me?

Aerospace locations as of February 2012

Total Population: 3918

Why me?

*Number of employees at each location**

** Does not include Casual/Temporary employees or those on Leave status*

Looking inside out

- Networks
- Trade-offs of \$ and people

- Managed
- Secured
- Distributed

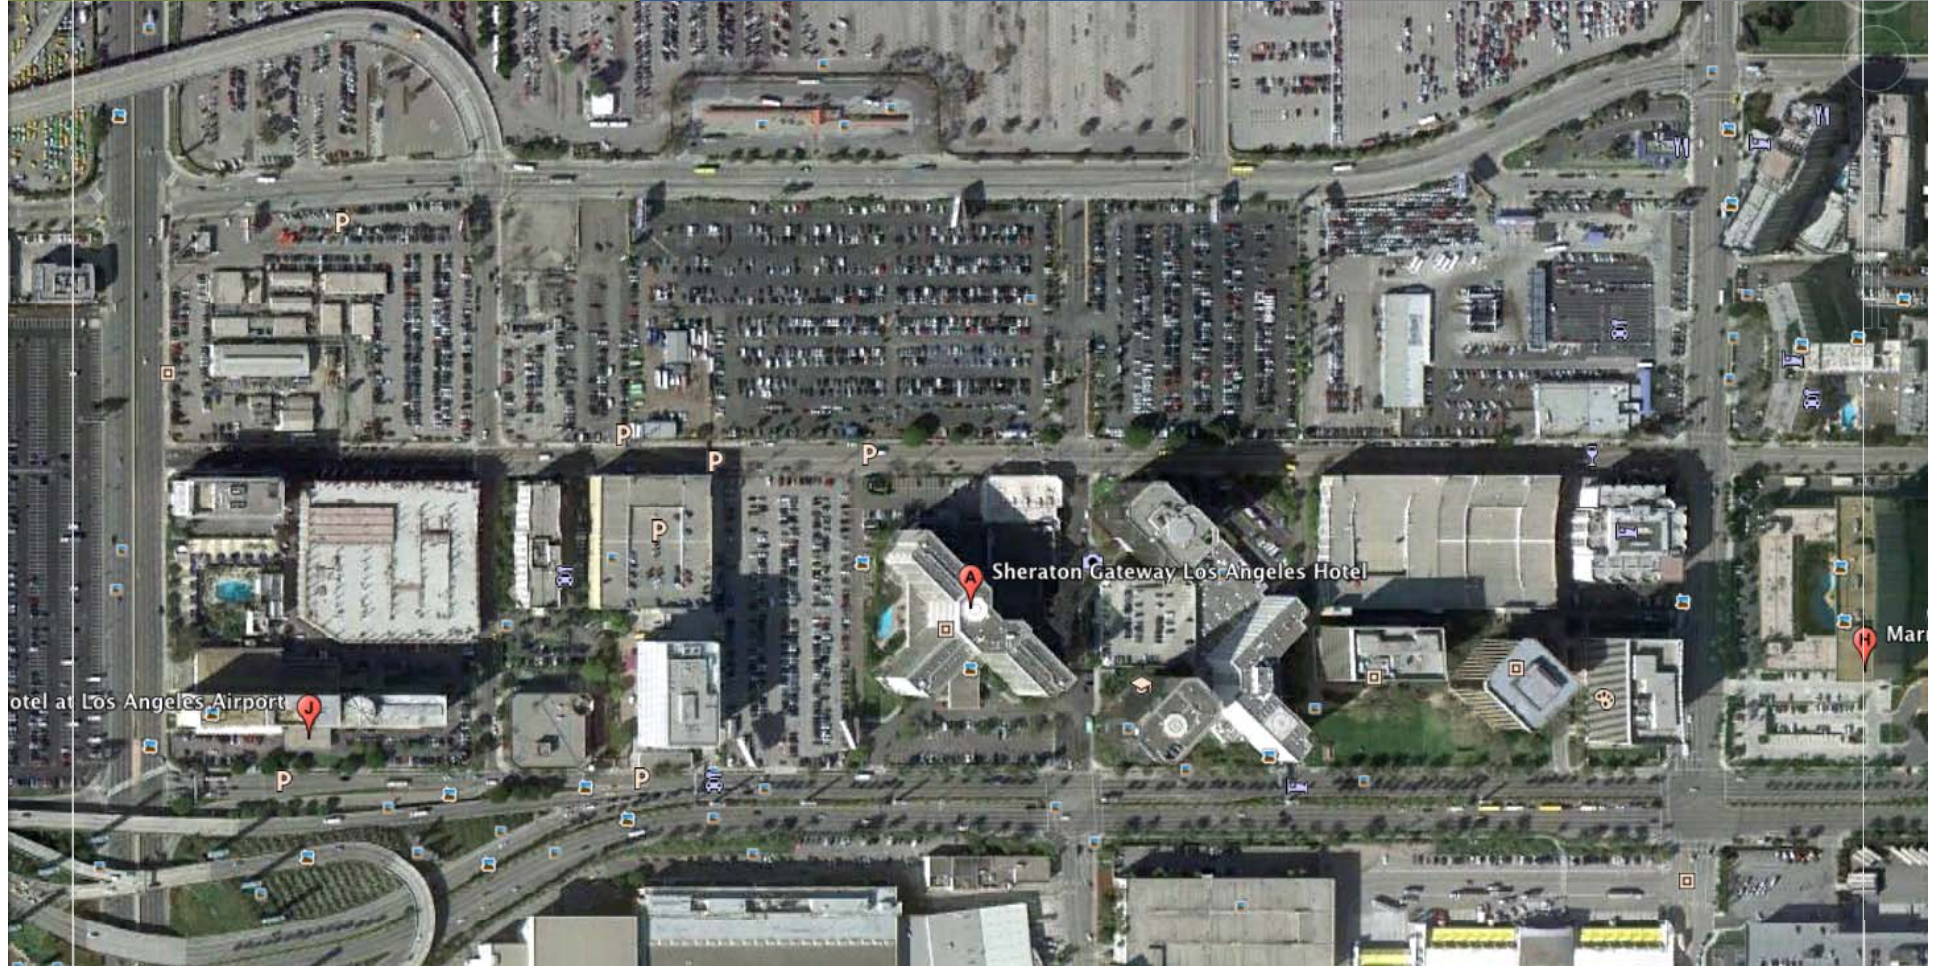

Information Drives Everything

- Information security
- Intellectual property
- Information systems health (viruses, etc.)

Key Considerations

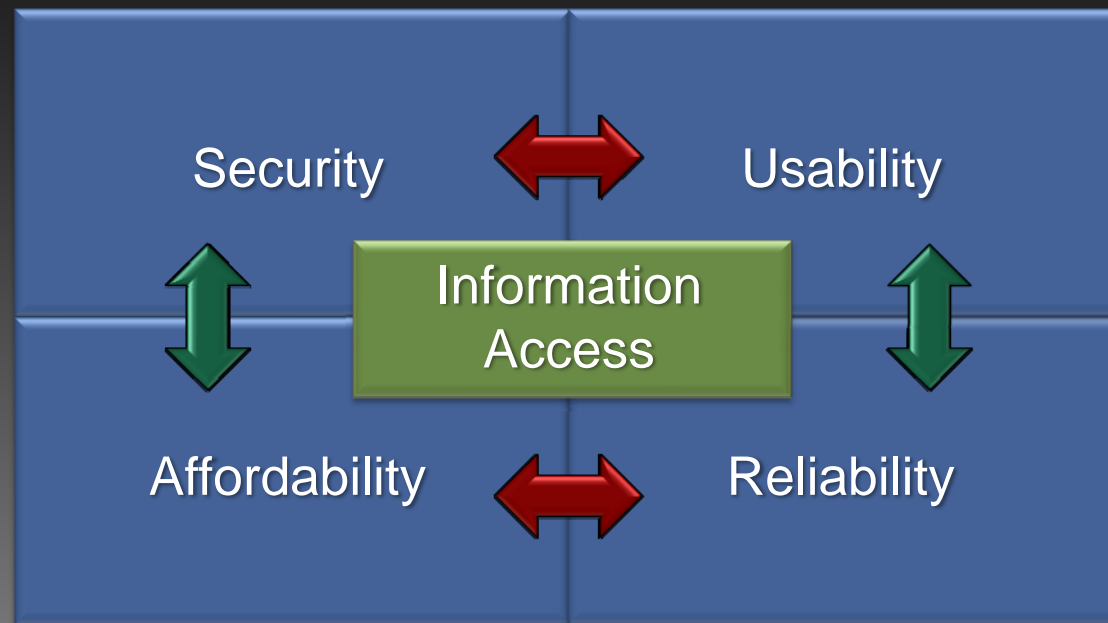

Why can't it be like Google Earth?

Enable All Aerospace Employees to Fulfill Support to Corporate Customers in a Secure and Reliable Manner

EIS Balance
Must weigh all aspects

- How do you make a multi-mission system without limiting it to lowest common denominator?
- Can you say “waiver?”

Challenge

AEROSPACE

Assuring Space Mission Success
