

Jim Caggy

**Sr. Manager, DoD Solutions
Amazon Web Services**

Jim Caggy leads the U.S. Department of Defense Solutions team for Amazon Web Services. He's been delivering highly distributed web scale services to enterprise customers in the commercial and US federal sectors for over 10 years. At AWS, he is responsible for Department of Defense solutions development and enterprise architecture. Prior to joining AWS, he spent 12 years as an infantry officer in the United States Army and completed multiple combat deployments to both the Middle East and Afghanistan.
