Towards Interoperability at Enterprise Level
Our steps towards Enterprise Interoperability

**Enablers**
- Moving from Systems to Services
- Enterprise-Centric Governance
- Common Specifications (ESA Programs)
- Application level Standards (ECSS)
- Communication level Standards (CCSDS)

**Interoperability Steps**
- Inter-operable Multi-mission Ground Services
- Integrated Multi-mission Ground Segments
- Inter-operable Space and Ground Segments
- Re-usable Libraries of Generic Implementations
- Inter-operable Communications Network

Moving from Systems to Services

Enterprise-Centric Governance

Common Specifications (ESA Programs)

Application level Standards (ECSS)

Communication level Standards (CCSDS)
