Brad Clark
President
Boehm Center for Systems and Software Engineering

Brad Clark is the President of Boehm CSSE. His area of expertise is software cost and schedule data collection, analysis, and parametric modeling. He co-authored a book with Barry Boehm and others on "Software Cost Estimation with COCOMO II" and with Ray Madachy on "Software Cost Estimation Metrics Manual for Defense Systems". Dr. Clark received a Ph.D. in Computer Science from the University of Southern California in 1997.
