

**Kevin Coggins**

Deputy Associate Administrator  
SCaN (Space Communications and Navigation)  
NASA Headquarters

Kevin Coggins is the Deputy Associate Administrator for NASA's SCaN Program. He is responsible for the development, acquisition, and management of reliable and cost-effective communications and navigation services to meet NASA and other Government Agency requirements for human and robotic space exploration programs in Earth, Lunar, Mars, and Deep Space.

Kevin has served in senior executive roles in industry and the government, including as the Army's first director of the Assured Positioning, Navigation, and Timing (PNT) Cross-Function Team and Direct Reporting Program Manager for PNT. Kevin's industry experience ranges from senior executive roles at Booz Allen Hamilton, engineering roles across the aerospace and defense industry, and founder of a technology startup.

Kevin is a native of Pensacola, Florida, and is a veteran of the United States Marine Corps where he served as a Force Reconnaissance Team Leader. He has a Bachelor of Science in Electrical Engineering from the University of Florida, is a Senior Member of the Institute for Electrical and Electronics Engineers and a Strategic Advisor to the Space Information Sharing and Analysis Center (ISAC), and has studied at the Naval Postgraduate School, Defense Acquisition University, and Darden School of Business.
