

Working Group Outbrief

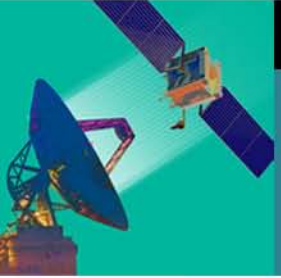

Ground System Architectures Workshop

Session 11C

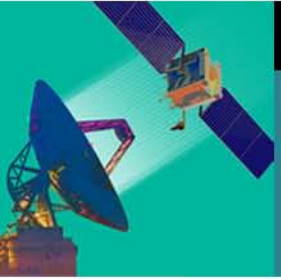

Ground System Transition Working
Group

Lt Col Lane Gilchrist, Schriever Air Force Base
Jeff Vance, The Aerospace Corporation

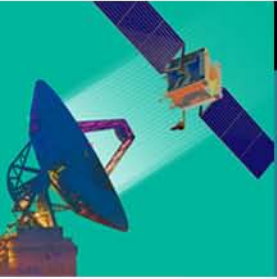

Session Goals

- Create dialogue on transitioning systems from development to operations
- Identify System Transition Principles
- Establish transition forum for directors and teams

Panelists

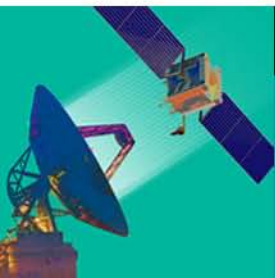

- Maj John Doucet, 19 SOPS/ADO
- Ms. Amy Epps, Shuttle to Ares Transition
- Mr. Andrew Rowland, CCS-C Transition Team
- Mr. Jeff Vance, Former GPS Transition Director

Key Points

- **Common Transition Guidelines**
 - Must reduce organizational self-interest/conflict
 - Solution: Transition Director construct
 - Identify and define requirements
 - Solution: Document, document, document
 - Understand effect of culture and leadership on transition
 - Solution: Roadshow briefs
 - Define who users are and keep them at the forefront
 - Solution: Involve user early and often
 - Know when you're done
 - Solution: Have robust life cycle sustainment plan

Most guidelines aren't addressed in current transition guidance!

Conclusions

- Never too early to focus on transition...
- There's a need for continued discussion
 - Transition Director Summit
 - Electronic Forum
