

Ground System Architectures Workshop ***Driving Innovation for Enterprise Integration***

February 23–March 3, 2022 | Virtual Event

Adam Byerly

Adam Byerly joined APL as a member of the Space Exploration Sector, Ground Applications Group (SIG) in 2018. He holds his M.S. in Applied Mathematics from the Johns Hopkins University, and a B.S. in Mathematics from the University of Maryland, Baltimore County. In his time at APL, Mr. Byerly has contributed software engineer and data analytics expertise across a portfolio of civil and national security space missions. His research focuses on the application of machine learning (ML) and high dimensional data analysis to space systems.
