

Ground System Architectures Workshop

Driving Innovation for Enterprise Integration

February 23–March 3, 2022 | Virtual Event

Robert Marx

Robert Marx is the Chief Engineer of an entire Program Area within the Space Security division of Lockheed Martin Corporation focused on ensuring that space remains a peaceful environment. At the center of that Program Area is a highly efficient modern software factory enabling quick, but secure, development of many software applications. Rob started his career at Lockheed Martin in 2004, spending the first half of his career focused on Military Satellite Communications, and the most recent half focused on Space Security and building a Software Factory.
