

Mariella Spada

**Head of Ground Systems Engineering and Innovation Department (OPS-G)
Directorate of Operations
ESA - European Space Agency**

Mariella Spada is Head of Ground Systems Engineering and Innovation Department (OPS-G), Directorate of Operations, European Space Agency (ESA). She holds a master's degree in Computer Science, a Master of Business Administration (MBA), and obtained a Certificate in Global Management from the INSEAD Business School. Mariella has more than 20 years of experience in the space sector. At ESA, she has spent a large part of her career in engineering, leading the teams who developed and operated critical satellite control

systems for the most fantastic Solar System exploration and cosmic observers space missions like Rosetta, first mission ever to orbit a comet and land a probe on its surface. In recent years, Mariella has been responsible for the strategic evolution of her directorate, with special focus on organizational behavior and innovation.
