

Ground System Architectures Workshop

Leaping into New Space: How to Leverage and Integrate with Traditional Aerospace

February 26–29, 2024
Renaissance Los Angeles Airport Hotel
Classified Session—February 29, 2024

Permission to Reprint and Distribute Agreement

I hereby represent and warrant that the content and materials used in my paper and/or presentation (collectively, “Material”) either (i) are original and my own work, or (ii) are original and the work of all co-authors, and I am authorized and have all necessary authorizations from co-authors, their employers and third parties (see statements below) to grant the license (or permission in the case of a government author) under this Agreement and to present the materials, in person or virtually by telepresence, at the **2024 Ground System Architectures Workshop** (“Workshop”).

Please initial below:

Initial I and/or my co-authors grant The Aerospace Corporation and Workshop co-sponsors a nonexclusive, royalty-free, worldwide, and irrevocable license (in the case of non-government author) or permission (in the case of a government author) to (i) reproduce the Materials for distribution (including electronic distribution) to registered attendees and other interested third parties; and (ii) include a copy, video and/or recording of my presentation and Material on the Workshop website and/or other publicly available content and media platforms used or maintained by The Aerospace Corporation or Workshop co-sponsors. The author and any co-authors, and their employers, otherwise retain all copyrights, publication rights and other intellectual property rights to the Materials. (For government produced material, your initial constitutes permission in lieu of the described license)

Initial If the copyright to any part of the Materials is held by my employer or a third party, or my co-authors’ employers or a third party, then I represent and warrant that my employer or third party, and each of my co-authors’ employers or third parties, has granted a written authorization for the scope of license granted or permission provided above.

Initial If the copyright to any part of the Materials is held by a co-author, and **not** by the co-author’s employer or a third party, then I represent and warrant that each co-author who owns such copyright has granted authorization for the scope of license granted or permission provided above.

Initial I understand that this Workshop is UNCLASSIFIED and its proceedings are open to registered participants, including foreign nationals. All of the Materials have been through my organization’s and any co-author’s organizations’ necessary approval process, and will be releasable to the public, and will not disclose classified and/or export controlled information. The first page of the presentation will be marked “Approved for Public Release.”

Initial I agree that the presentation and Material is to be educational in nature primarily for informational purposes rather than for marketing or advertising purposes.

Initial I understand that the Aerospace Corporation and Workshop co-sponsors cannot endorse any presentation or the Materials, and that the ideas and opinions expressed in the presentation and Materials are my own or those of the co-authors, and not those of The Aerospace Corporation or Workshop co-sponsors.

If the presentation and Materials were prepared jointly with others, only one signature is required, but I acknowledge that all authors have agreed to the above terms.

This Agreement may be initialed and signed digitally (collectively, “Digital Signature”) or by other conventional means, such as a scan of handwritten initials and signature, or affixed by computer programs such as Adobe Acrobat or equivalent, and transmitted by electronic means such as email or upload. I represent and agree that each Digital Signature shall be treated as original.

Authorized Signature (or if a joint work as AGENT for all authors)
