

Steven A. MacLaird (Steve)

Senior Vice President, Government & Industry Strategy, Object Management Group® (OMG®) & OMG Managed Programs: (Consortium of IT Software Quality™ (CISQ™), and Industrial Internet of Things® (IIC®), Digital Twin Consortium™ (DTC™), and Augmented Reality for Enterprise Alliance™ (AREA™)

As Senior Vice President, Steve's primary focus is to support the OMG government, Industry and Academia activities. Secondary focus is development for the other OMG Programs (The Industrial Internet Consortium (IIC); Consortium for Information Software Quality (CISQ), the Digital Twin Consortium and the Augmented Reality Enterprise Alliance (Area)) and other duties assigned. Steve retired from the United States Air Force after 27.5 years. Upon retirement, he consulted with several Fortune 200 companies as well as large, medium, and small companies; DoD, Services, a number of 3 letter agencies and the Department of Energy; was Vice Chairman of the Board for PrismTech Solutions Americas; and a Military Advisor to the United Arab Emirates. His career spanned contracting, financial and program management for air, land, sea, and space-based platforms along many areas of the Battle Management Command, Control, Communications Intelligence, Surveillance and Reconnaissance (BM-C4ISR) kill chain.
